www.movingmemoriesphotography.net

What is the cost? Since every Moving Memory show is unique, it is very difficult to have a standard price list. An important decision is whether you are going to use only your own photographs, or whether you'd like us to include our Fine Art Photography in your slideshow.

While we offer some basic packages, the price may vary if there are additional services required. Every slideshow will begin with a written price quote after we determine what the slideshow will include. (Please note that the length of the show will vary due to the pacing and tempo we create. The number of slides does not necessarily allow us to predict the length of the show. However, if you have a specific time frame, we can conform to any length.)

EVERY PACKAGE ALWAYS INCLUDES.....

- Initial meetings to plan your show and work-in-progress viewings for your approval.
- Unlimited transitions between slides; and all pans, zooms, and other effects that transform your photos into a MOVING MEMORY SLIDESHOW!
- Title slides, Captions, and Credits.
- Custom scans, cropping, and restoration (including red-eye removal).
- Custom DVD Main Menu.
- CD of all your scanned images.
- Two copies of your finished slide show, presented in a custom keepsake case (makes a beautiful gift).
